

## PREREQUISITES

### Software

Team ID	PNT2022TMID20150
Project Name	IoT Based Safety Gadget for Child Safety Monitoring & Notification

The image shows a screenshot of the Wokwi website, a platform for simulating IoT projects in a browser. The website has a dark theme with the Wokwi logo at the top center, which includes the text "Simulate IoT Projects in Your Browser". Below the logo are links for "Discord Community" and "Facebook Group". A green banner in the center of the page says "We're adding new stuff all the time, want us to tell you?" with a text input field for "Your email address" and a "Stay Updated" button. On the right side, there is a user profile for "19TUEC139 PERINBAVASAN.S" with a "Docs" link and a list of navigation options: "Discord", "My projects", "The Club", "Feature Roadmap", "Language", and "Logout". Below the banner, there is a section titled "Featured Simulation Projects" displaying six project thumbnails: "Simon Game with Score", "Nano Pong", "32x32 LED Matrix Tunnel", "Hacking Calculator", "Hacking Digital Scale", and "Hacking Digital Scale". In the foreground, a Windows Command Prompt window is open, showing the command `C:\Users\jumliortps>python --version` and the output `Python 3.11.0`. The prompt is currently at `C:\Users\jumliortps>`.

```
Command Prompt
Microsoft Windows [Version 10.0.22000.1000]
